## Description

1999 Fairline Targa 29 with twin 170 hp Volvo Penta KAD32/DP diesel engines and full service history (last major service carried out in November 2021), which has had little or no use in 2022 / 23, having been stored ashore for most of this time waiting for delivery of a new windscreen. It also benefits enormously from both engines, transom shields and sterndrives being removed for a no expense spared overhaul / re-spray in 2018 (injectors serviced and new parts fitted included one stern drive, turbo chargers, heat exchanger end plates, alternators, exhaust risers, raw water pumps, gear / throttle cables, trim rams etc). A reliable example of these popular family sports cruisers with good inventory and numerous recent upgrades, including new Garmin / Raymarine electronics, Fusion marine stereo, covers and synthetic teak decking on boarding platform.
